Fitness Fact 2. Walking at a brisk pace (a 15-minute mile or 4 mph) burns almost as many calories as jogging for the same distance. The benefit of jogging is that it takes less time to cover the same distance and it benefits the bones; however, it may be too strenuous for some.

Fitness Fact 3. It takes about 12 weeks after starting an exercise program to see measurable changes in your body. However, before 12 weeks, you will notice an increase in your strength and endurance.
